## Front End Developer

I am a Front End Developer, UI and UX with 8+ years of experience. I am pro-active and very responsible. Good communication skills, teamwork and leadership. I like constant growth, new knowledge and challenges.

I have worked in many development projects and all the stages I saw the importance of teamwork and assertive communication; this is vital to find new and better solutions to problems working with agile methodologies like scrum.

## WORK EXPERIENCE

### Owner Fornt End Developer - TrigalMedia

From October 2018, Currently Working.

I give trainings in some technical institutes: CyberU, I support and maintain some projects developed by me: AsesoresPyme, CyberU, AEA Producciones

### Front End Developer - Prime Ideas

From February 2016, to October 2018.

Front-End Developer and Team Lead. We develop for betting sites. I enjoyed implementing my development practices as company standards, I also worked in the requirements stage, UX and UI design, creation of white frames, mockups and layout

### Web Developer - Experian Marketing Services

From August 2012, to september 2015.

I worked on a Front-End and Email Marketing development team. I developed a training plan that allowed the growth of the equipment and its capacity to produce in volume. I also worked in the requirements stage, UX and UI design, creation of white frames, mockups and layout
